

# Olivier Daire

## Full-stack developer

Curious and passionate about new technologies, I am interested in multimedia and digital creation since a young age. Thus, I chose to study development, especially web. I like how quickly it evolves and how it challenges you to stay up to date and creative.

## WORK EXPERIENCE

### 09/2016 **Back-end developer - Jaiye**

Jaiye is a musical streaming service dedicated to afro and caribbean music.  
Rebuilding of the data model from scratch and back-end development.

### 06/2016 – 08/2016 **Full-stack & iOS developer - Oskoui+Oskoui**

Oskoui+Oskoui is a digital agency located in Los Angeles. It offers web and mobile solutions to various clients.

Adding new features and bug fixes to the Petersen Museum iOS app.  
Development of two interactive websites for Fox Studios. Building of an e-commerce website using Magento for Bauer's Intelligent Transportation company.

### 10/2015 - 05/2016 **Full-stack developer - ShuttleOFX**

ShuttleOFX is an open source web platform designed to share OpenFX plugins.

Improving overall experience and performances to reach a wider audience : adding new features, improving stability, ergonomics.

🏆 Tech et audience awards - [Student Demo Cup](#), [Paris Open Source Summit](#)

### 04/2014 – 08/2014 **Front-end developer - AlittleMarket**

Alittlemarket is an e-commerce website, focusing on handmade products .

Improvements on the current website (bug fixes, new features, A/B testing) and front-end development for the new Symfony2 powered version.

### 06/2013 – 04/2014 **Web developer - Hexagen**

Fake web agency created for our course. The main goal was to develop a web app to build a résumé online.

Front-end development for the agency website and both front-end and back-end development for the web app.

🏆 Special mention - [Awwwards](#)
